

Whiz Integrated Systems Forms Alliance with Diversified Technology Firm; Prosum

GARDENA, CA (September 30, 2004) — Whiz Integrated Systems Software, Inc. (www.wissoftware.com), a premier provider of technology and business solutions to the sewn products industry and general manufacturing sector has announced a new alliance with multi-disciplinary technology services firm; Prosum.

The two companies, leveraging their core competencies, will begin co-marketing and delivering technology design, development and implementation services to their diverse customer base.

Whiz VP of Sales and Marketing, Paul Wallend commenting on this new alliance said "this partnership will deliver significant value to our respective clients. The strength of Whiz in the AS/400-RPG services arena combined with the broad skill set of Prosum in the areas of IT strategy, network engineering and application development and integration allows the two companies to offer a full range of services to their clients with diverse IT infrastructures".

Anne Marie Ponzio, Sales Director of Prosum adds "We are very excited to partner with Whiz Integrated Systems. We are able to leverage their core competencies and expertise in the areas of AS/400 and RPG programming to augment our core offerings to Prosum's EDI and manufacturing customer base."

About Whiz Integrated Systems Software, Inc.

Founded in 1994, Whiz Integrated Systems Software, Inc. is a premier provider of technology and business solutions to the sewn products industry and general manufacturing sector. WIS delivers both solutions and services in Apparel ERP selection, implementation and custom development, specializing in the ACS Optima® and Porini® ERP systems. In addition, WIS provides both software and services to address apparel and non-apparel company requirements in the areas of EDI, Warehouse Management, Sales Force Automation and Deduction/Chargeback Resolution.

About Prosum

Prosum, Inc., founded in 1996, specializes in a core set of services that help our clients support the information technology needs of their businesses. Prosum will assist you in strategic technology planning, take responsibility for implementing projects, and provide flexible support services.
